

Operating Levy 2020 -- Flat Tax Levy 3.85 mills will NOT INCREASE taxes

HOW:

- The final debt payment for the 1997 Middle School bond is in December of 2020 and equates to 3.85 mills. Successful passage of this levy will provide revenue to continue operations without increasing the amount of taxes paid by our residents through this levy cycle.

WHY:

- The District has experienced a reduction in state funding.
- District expenditures, like every business, increase over time.
- ALL school districts in Ohio to ask voters for tax levies.
- **PASSING THE LEVY IS CRITICAL** to sustain current programming and minimize further reductions by the district.
- **IF LEVY FAILS**, Chagrin will have to request a 7.9 mill operating levy in the Spring which will **INCREASE YOUR TAXES**. There will be further cuts to sustain CFEVS through 2022 if we rely on a spring 2021 levy.

Vote Yes to SUSTAIN CHAGRIN and keep your taxes flat.
